VOL. 56—NO. 149 JACKSONVILLE, ILLINOIS, SATURDAY MORNING, JUNE 10, 1922 EIGHT PAGES—THREE CENTS

SUPREME COURT CRITICIZED BY SAMUEL GOMPERS

Tells Club of Business Men Labor Will Ask Legislation

(By The Associated Press)

CINCINNATI, O., June 9—Protests of Organized Labor as voiced here today at preliminaries for the annual convention next week of the American Federation of Labor centered against the supreme court, congress and state legislatures.

Samuel Gompers, president of the federation in addressing a club of business men interpreted the supreme court decision in the Coronado Coal case as a negation of the right to strike and declared that Organized Labor would appeal to congress for new legislation setting aside the decision.

In criticising the supreme court Mr. Gompers said he expected to be taken strictly to account for his utterances, adding that "I do not run away from a fight."

"But, it has come to a pretty pass," he continued, "when an American citizen can no longer discuss and criticise the decision of the courts."

Delegates to the meeting of the metal trades department of the federation by unanimous action assailed congresse and state legislatures as enemies of labor and declared for labor's active participation in the fall campaigns in an effort to elect its friends regardless of their politics

Continue Their Meetings.

Two other departments also continued their meetings, the delegates to the union label department discussing plans for furthering sales of products bearing the union label and the delegates to the building trades department splitting up into committees to lay plans for concluding their work tomorrow. In his speech, Mr. Gompers said the Coronado decision made international unions endorsing strikes, liable for damages, and heassertd this meant the unions must withstand "constant litigation or go out of business."

"If you compel men and women, regardless of conditions," he continued "to work against their will you have re-established slavery. Some people are impressed now is the time to take advantage of the working people, reduce wages and break up their organizations and under the 'open shop' weaken or destroy the unions.'

He warned against "driving the bargain too hard," asserting that a day of reckoning will come.

The delegates to the metal trades meeting, in turning attention to politics, declared by resolution that congress had sneered for months at the representatives of Organized Labor and that most members had been elected for services given high corporate interests.

FAVOR PRIVATE DEVELOPMENT OF MUSCLE SHOALS

Committee Recommends Legislation to Bring This About

(By The Associated Press)

WASHINGTON, June 9.—Enactingof legislation designed to bring about development of the government's power and nitrate projects at Muscle Shoals, Ala., by private enterprise was recommended today to the house in three reports filed by members of th emilitary committee.

Each of the reports admitted that the committee had been unable to agree upon details for the proposed development and expressed belief that the task should be performed by the public itself.

The report, presented by acting Chairman McKenzie of Illinois, called for the acceptance of the Henry Ford proposal as amended by the committee to eliminate the Gorgas steam power plant from the properties to be disposed of at Muscle Shoals.

Representative Wright, Democrat, Georgia, and seven other committeemen asked that the house accept the Ford offer in the form it was finally submitted by the manufacturer without amendment or modification.

Representative Parker, Republican, New Jersey, believed the Ford tender should be materially altered if accepted in any form or the Shoals' properties should be returned to the jurisdiction of the war department and Secretary Weeks authorized to dispose of them under terms approved by congress. Inquiry as to when action would be taken on the bills directing acceptance of the Ford offer which also were removed from the committee by Acting Chairman McKenzie was made by Representative Garrett, majority leader as soon as the reports were announced in the house.

Majority Leader Mondell replied that while he was anxious for early consideration of the measures it was impossible now to say how soon action could be expected.

Proponents of the measure it was understood, do not intend to permit forgetting pending bills.

LINCOLN'S OWN COPY OF KIRKHAM'S GRAMMAR

(By The Associated Press)

DECATUR, Ill., June 9. — Abraham Lincoln's own copy of Kirkham's Grammar, considered by many collectors the most precious Lincoln-Rutledge relic has come into possession of the Decatur Lincoln Memorial collection thru a loan from William W. Rutledge, of Miltin, Mont.

This is the very book which Lincoln and Ann Rutledge studied together in New Salem days and the title page bears in Lincoln's hand writing the legend:

"Ann Rutledge is now studying grammar."

As far as is known it is the only gift that Lincoln made to his sweetheart.

William W. Rutledge is the son of Robert Rutledge, who was a brother of Ann. An order on James Rutledge to pay David P. Nelson the sum of thirty dollars and "this shall be your receipt," signed by Agraham Lincoln, for D. Orfutt, was pasted across the inside of the cover by Robert Rutledge and is still in a good state of preservation.

DEFENSE SCORED POINT IN GREEKS TRIAL YESTERDAY

Two Testify Hearing Deputy Utter Warn Parties Away

(By The Associated Press)

QUINCY, Ill., June 9.—Two witnesses for the defense, Rose Ideus and Mrs. Sarah Trumbull, both testified in the case of the 29 Greeks charged with the killing of Sheriff Lashbrook today that they heard Frank Utter, one of the two deputies killed along with the sheriff, say, with an oath, "get out of here; I am here to protect these fellows," and that this was immediately followed by a volley of shots after which there were several distinct moans. The latter said she was waiting at the home of the former, which is but a short distance from the depot in Frederick, Schuyler county, where the killing took place.

The defense is contending that the killing was done by men who had come there to make trouble for the Greeks and to bear this out had the foreman of the Greek laborers, A. Klabanos, on the stand. He is not a defendant. Klabanos testified that he met a crowd of men coming toward the depot just after he left it. A few moments later the shooting was done. There were three Greeks on the platform at the time and these three have never been accounted for, he said. Whether they were killed with the officers is a mystery.

Klabanos said they have never been heard from. He also stated that the first firing was from three points of the depot platform. The state objected to the admission of evidence tending to the showing of threats and long arguments took place which lasted until adjournment. The court will pass on these tomorrow morning.

Mrs. Lashbrook, widow of the slain sheriff, accompanied by her five year old son, appeared in the court room for the first time today.

Sam Dodd, a witness for the defense, failed to appear when his name was called several times. When found on the streets he had apparently been drinking and Judge Wolfe sent him to jail for three days remarking this would give him "time to sober up" and be prepared to testify when called upon.

Body Believed to be that of Chicago Man

(By The Associated Press)

CHICAGO, June 9.—The man whose charred body was found today in a pile of partly burned brush among the sand dunes near Chesterton, Ind., may be Kenneth Anderson, a former Chicago bank clerk, according to friends here tonight.

Gene Perlowski, a friend, said Anderson was fond of camping and had visited the dunes many times. Nothing had been heard of him since May 25.

The body found today was so badly burned that identification was practically impossible. According to county officials the man was murdered. A rifle was found between his knees while nearby was a loaded pistol, a radio set and a camping outfit, still packed. The back of his head was crushed. A suit case found near the body bore the name of "Anderson," but purchase slips bore the name of Erickson. Officials tonight were looking for a man and woman that lived in the dunes section.

The body was found by Milton Adair, a college student. It lay on an improvised funeral pyre constructed of criss-cross two-by-fours placed on top of the brush. The body had been soaked with kerosene and near by was found an empty can which contained the oil.

The police expected to make an investigation tomorrow based on the purchase slips in an effort to identify positively the body. Authorities at Valparaiso, Ind., admitted tonight that the case was still a mystery so far as a motive for the slaying was concerned. The body was buried today.

An inquest is to be held later.

SECRETARY HOOVER AND SENATOR BORAH MET IN CONFERENCE

Seeking Mutual Understanding on Present Coal Prices

(By The Associated Press)

WASHINGTON, June 9.—Administrative and legislative views of the existing bituminous coal price situation were exchanged tonight at a conference of Secretary Hoover with Senator Borah, arranged, it was understood at the instance of the commerce secretary. The two were understood to be seeking a mutual understanding of presenting the present level of coal prices and the effect upon charges to householders of Mr. Hoover's agreements with producing operators establishing maximum levels.

Attention was understood to be given to the lack of any government means other than moral suasion for meeting the problem of preventing runaway coal prices. Another exchange of letters took place today between Mr. Hoover and the National Retail Coal Merchants association over the question of advance in the price of bituminous coal to the householder resulting from the operators affecting run of mine coal.

Roderick Stephens of New York, chairman of the governmental relations committee of the association it would be a "waste of time to continue the discussion in view of Mr. Hoover's intention to evade the issue."

Charges Confusion of Issue.

He charged the secretary with attempting to confuse the question at issue in that by claiming to have prevented an advance in the price of bituminous coal he had "failed to consider the interest of a substantial proportion of the consuming public," such as apartment houses.

Mr. Hoover in reply stated that he noted the letter from Mr. Stephens did not reply to his suggestions made public yesterday as to how retail coal dealers could play a fine part in this emergency.

Tables giving the average prices of bituminous coke representative of 90 per cent of the country's output compiled by Coal Age, were issued by the coal division of the commerce department to show the results of the "effort to restrain the rise of prices at the first of June," when the conferences between Mr. Hoover and the operators were held.

Comparing prices on June 5, the tables gave for Chicago $3.15 per ton for household sizes of lump coal and $2.90 for run of mine steam sizes; Cincinnati $3.25 for West Virgina and Southeast Kentucky lump and $2.75 for West Virginia run of mine and $2.85 for Southeast Kentucky, all prices f. o. b., mine.

They succeeded in discovering but $27 of this, $4,990 which was hidden in old rags stuffed into the walls of the place being overlooked. The second robbery occurred at the branch post office annexed to the store of Richard Banta. After blowing the outer door of the safe in the store department, the men failed to move the inner door. Abandoning the rifling of the safe they robbed the postal annex of $30.

Mrs. E. F. Walter of the southwest part of the county visited the city yesterday.

Estimated That Prosecution Has Introduced 7,000 Exhibits

(By The Associated Press)

WAUKEGAN, Ill., June 9—The prosecution in the case of Governor Len Small, charged with conspiracy to defraud the state of interest earned on state funds during the terms of himself and Lieutenant Fred L. Sterling, as state treasurer, today, began reading into the record several hundred of its exhibits mostly checks drafts and certificates of deposit.

Judge Edwards and the attorneys estimated the state has introduced approximately 7,000 exhibits, but not all of them will be read into the record.

His assistant, Arthur W. Rugge was called as a court witness and cross-examination by Assistant Attorney General Wilkerson could not remember what had become of records which the bank failed to produce in answer to a state subpoena.

HARDING RECEIVES HONORARY DEGREE FROM PRINCETON

Hailed by Dean West as Man of Quiet Courage

(By The Associated Press)

PRINCETOWN, N. J., June 9—President Harding dedicated a monument to the achievements of George Washington in Princeton today and heard himself hailed as a man of "quiet courage" and "immense patience and self-effacing modesty" in his own policies towards current and controversial political issues.

The words came from Dean West who used them in mention of the president's stand against the veterans' bonus today and his votes for anti strike laws as a senator as he recited the reasons which induced Princeton University to give the president an honorary degree of Doctor of Laws.

Twice the stimulus of an intent audience caused President Harding to break away from prepared manuscript in speech-making. Before the Princeton student body, stirred evidently by the high praise of the citation of himself, he almost disregarded preparations to lay down some standards of valuation of men.

"I care not what position a man may monetarily be in" he exclaimed, "you can measure his standard of usefulness to America by the service he renders the community in which he resides."

"Doctor,"—the president turned to Dean West and President Hibbin of Princeton — "I thank you for your earnest wishes. I care not who one is, if he can only expend his power in righteousness, he shall not have lived in vain. We can only ask God to let us make our way in righteousness and if, in that making, we can make our way, religious, we'll be a little bit the better for that."

The early interruption to set speeches occurred at the monument dedication. In his interpolation the president urged his auditors to cherish national traditions by such erections that they might be helped to "fulfill the great American destiny."

If it were a little later one could make apologies for this hot weather, by saying it is fine for the corn, but just now there is really no excuse for it. But why complain?

Isn't it about time for the usual summer discussion about unsightly weeds on certain streets and vacant lots? Come to think of it, a little present day action with hoe and scythe will prevent the customary weed protests.

Every once in a while you hear the statement "Ten years from now we are going to be mighty proud of Jacksonville, with its new buildings more extensive parks and larger population." The present Jacksonville spirit augurs well for the accomplishment of these desired things, but meanwhile just keep in mind that we are proud of Jacksonville NOW and there is not another city of equal size in Illinois or any other state that surpasses it.

If you were asked to name a city of the same size that equals Jacksonville what name would you suggest?

Because of the hot summer weather people are not even half way interested in the talk of differences between the mine operators and the miners. Not even the suggestion of the need of government supervision of the mines creates much interest. But there should be no false sense of security, and the time is very near at hand when the government should take whatever steps are necessary to force the negotiations which will bring about the resumption of mining.

This is the case because the records of the years will prove that negotiations between operators and miners affecting a new wage scale usually occupy seven to eight weeks. If these negotiations were begun now and an ordinary procedure followed, the mines would not be in operation until August. If mining can be started actively at that time the danger of any shortage will disappear, but delay beyond that date is likely to mean a scarcity and the excuse for high prices.

A well known southern periodical says that "probably improving conditions are as much due to Comptroller of the Currency Crissinger as to any other man. He was not fairly in office before he began applying to national finance the principles which he had found successful in small-town banking."

Undoubtedly the praise is well-deserved, but there is nothing unusual in the Crissinger policies in the Harding administration. The president of the United States is a small-town man—one who made a success of a publishing business conducted on the same principles that must be observed the country over if a business is to be successful. Mr. Harding learned the essentials of business success by beginning at the bottom and acquiring knowledge by experience. He appreciates the value of knowledge gained in that way and also the importance of having in his administration men who have learned by doing rather than by studying books only.

"GIPSY BLOOD"

Gypsy Blood is a faithful reproduction of the original Prosper Merimee story from which the opera "Carmen" was adapted. It is a different, more wildly romantic story than any version yet presented on the screen. Thousands will pass before you. Kaleidoscopic panoramas will amaze you. Swift sweet flashes of wonderful wooing will call to you. But above all you'll ever remember the thrall of Pola Negri, the enchantress who holds a humble sodlier with a love as ecstatic as the love of the World's Immortal Beauties.

MR. CHUBBUCK TELLS OF INTERURBAN TROUBLES

H. E. Chubbuck, general manager of the Illinois Traction system, was recently quoted in a St. Louis paper with a statement about the extent the hard roads have damaged the business of the electric roads.

"If the I. T. S. did not have the lighting franchise of towns as far south as Venice, the road would be closed by now," Chubbuck said. "The business of electric railway lines has been at a standstill for the last ten years. We do no more business into St. Louis than we did ten years ago. No development has been seen since the automobile and hard roads have become popular.

"The automobile, aided by concrete and gravel roads, has been a great hindrance to the growth of interurban business," he said.

Chicago Girl, Forced to Let Meals Go By Because of Her Nervous Indigestion, Declares Tanlac Brought Her Complete Relief.

"Tanlac has given me complete and quick relief from a bad case of nervousness and stomach trouble," said Miss Anna Olson, 1525 Melrose St., Chicago, Ill.

"I was so run down I was unable to sleep for hours every night and got up feeling so worn out I could hardly attend to my work. I had indigestion something awful and often let meals go by to escape the suffering I knew would come afterward. My appetite was gone and I had such bad headaches I could hardly stand up.

"Tanlac has just the same as made a new person of me. I have been built up until I can easily do my work and my appetite is fine. Tanlac certainly does what they say and I wish I could give it all the praise it deserves."

Tanlac is sold by all good druggists.—Adv.

DOINGS OF TROOP NO. 6

Rotary Club House, Meredosia Bay—Friday Morning

Things continue to be lively at the Rotary cottage. Yesterday it was discovered that there were Bolsheviks in camp and that a deliberate plot was on foot to capture the camp flag and raise the same on the island across the bay. The Bolsheviks made an attempt in the morning but were caught. The identity of three of them was revealed, and they were promptly given a mud bath and ducked in the lake. The men thus treated were Marshall, Walton and Vosseller.

The flag was nobly defended by the Loyalists until noon, when a truce was declared. Immediately after dinner the camp enjoyed a launch ride up to the La-Grange locks. Here the boys saw a dredge in action.

Following the return to camp all enjoyed a good swim, and during this period the truce was called off. By some clever maneuvering and trickery one f the Bolsheviks was discovered swimming across the bay with the flag in his possession. An endeavor was made to capture him but in vein, and "Slim" Walbridge, arch Bolshevik, soon mounted the shore of the island triumphant.

Much improvement has been made in care of quarters. Inspection covers the appearance of cots and its suroundings, washing teeth, hands and face. Today in spite of very strict marking Landers, Wilson, Marshall, Thompson, Walton and Harry Capps received 100 per cent and four 99 per cent, and only three received less than 90 per cent.

Last night a new "after dark" patrol game was tried out and proved very popular. Groups 1 and 4 took in groups 2 and 3 altho the latter will seek revenge tonight.

Today the field meet was won by group 4 with a total of 43 points. Group 1 came second with 34 points, with group 3 holding third place with 20 points and group 2 scored 18 points.

HOSPITAL ADDITION NEARING COMPLETION

Entire Third Floor of New Addition at Our Savior's Hospital Now Occupied By Patients.

The new addition to Our Savior's hospital is rapidly being completed and occupied. At the present time all the third floor rooms are given ovea to patients and they are finding the facilities all that could be desired.

The furniture in each of the rooms is in accord with the most up to date ideas of hospital furnishings. In each room is a white single bed, a dresser, a side table, a chair with a leg rest and a stand at the side of the bed. This stand is especially conventient, as it can be used for a serving table and is equipped with two shelves which can be swung in and out.

The building is provided with a large elevator which runs from basement to roof garden. This elevator has all devices for convenience and safety, inriuding an alarm button which connects with a large bell which can be heard all over the building. Should the elevator be caught between two floors the pressing of this button by the operator immediately summons help. If the doors refuse to work there is an exit at the top of the cage which can be used.

The work of completing the addition is being hurried as much as possible and soon the entire building will be ready for use.

LAD HIT BY CAR ON SOUTH MAIN STREET

Dr. A. H. Kenniebrew while driving on South Main street yesterday morning near the Leggett oil station accidentally ran into Chester Baird, seven year old lad who lives at 477 South East street. The boy, in company with some other lads, was playing in front of the oil station. When they saw the approaching car, they ran back. The driver, seeing the children, swung his car onto the curbing on the west side of the street, in an effort to miss them. But somehow the bumper struck the boy, who received a bruise to his left knee. Dr. Kenniebrew took the injured lad home.

ELLS HOW TO CORRECT MOVIES

inister says They must drop Policy of Isolation and Condemnation.

CHICAGO, ILL.—If the Church to correct any of the unrtunate abuses which now obtai the motion picture world, the ole policy of insolation and ndemnation must be dropped y. Irvin E. Deer, of Dayton, O. today told the Annual Conference of Church Federation Secretaries.

Only by the heartiest cooperation of Church and theatre can these problems be solved, "he said. In states which have censorship the procedure will partake largely of propanda to keep the consorship law on the statute books and efforts to see that the law is enforced. In states where there is no censorship the Church must depend entirely upon an aroused public opinion.

Our committee in Dayton recommended that all serials be eliminated. The Bureau of Crime Prevention retorted that between 50 or 60 percent of all boys coming under the jurisdiction confessed that they were merely imitating activities witnessed on the screen. Public school teacher report that the sensational and hectic screen drama was making the teaching of good literature difficult.

From our study in Dayton we make four practical suggestions First, that continuous study of the movie as it affects children hall be made under the direction of the Churches. Second, parents must be aroused to exercise greater care in the selection of films their children may see. Third, through Churches, public schools and affiliated organizations, special shows, suited to the child mind, should be given at such times as not to interfere with regular school work. Fourth, managers should be informed concering all films which are considered obpectionable and commended for those which are wholesome.

ALWAYS TIRED NO AMBITION

Nervous and Dizzy, Everything Seemed to Worry Me. How I Got Well

Larwill, Indiana.—"My back was so bad I could not do my washing. I was always tired out and had no ambition, was nervous and dizzy and everything seemed to worry me and I had awful pains in my right side. I felt badly about four years and could not do my work as it should have been done. I saw Lydia E. Pinkham's Vegetable Compound advertised so much and it did so many people good that I began to take it myself. I am feeling fine now and every one tells me they never saw me looking so well. I live on a farm, do all my work, and have three little girls to take care of. I am recommending this medicine to my friends and know it will help them if they use it like I do." — Mrs. HERBERT LONG, R. R. 3, Box 7, Larwill, Indiana.

Many women keep about their work when it is a great effort. They are always tired out and have no ambition. When you are in this condition give it prompt attention.

Take Lydia E. Pinkham's Vegetable Compound, for it is especially adapted to correct such troubles.

HOT DOG!

With the coming of hot dog days makers of frankfurters have tried to elevate their business by launching a campaign to eliminate the words "hot dog" from the vocabulary of venders of these universal sandwiches. But the sandwich men have not fallen in line. The old familiar cry is still used.

"What would a beach party or a picnic be without a hot dog sandwich?" asks pretty May McAvoy, Paramount picture star.

She is shown in the picture indulging in her favorite summer sport. In her forthcoming Paramount picture, "The Top of New York," she has ample opportunity to satisfy her penchant for hot dogs.

PEKING IS GETTING WESTERN CUSTOMS

China's Capital Is Growing Modern in Many Respects—Walking Sticks Also in Fashion.

Peking — (By the Associated Press.) — China's picturesque capital is gradually adopting western customs. The ancient salutation of bowing has been almost entirely replaced by handshaking and by the lifting of hats. Walking sticks in the hands of Chinese patriarchs, portfolios under the arms of brisk young officials and European clothes are the evidences in the streets which prompt observers to predict that Peking will soon lose its pre-Manchu appearance. Even the boys who pull 'rikishas have found it profitable to learn English and French sufficently to ask their foreign patrons, while English shop signs are becoming conspicuous in remote parts of the city.

Shakespeare, after centuries of patience, also has won recognition, for, while the text of his plays are seldom read, the stories of his plots are regularly told in the class rooms of the high schools, thus giving new evidence of the universal appeal of the English bard. Chinese boy scout organizations and brass bands playing airs familar to American ears are other innovations.

But while new ideas are adopted many of the old ones are tenaciously adhered to. Thousands of men in Peking still refuse to part with their queues. Among the coolies one in every hundred still carries his "pigtail" either dangling over his back or wound around the top of his head.

About 200 automobiles have been introduced, but side by side with them in the congested streets may still be seen the caravans of camels starting on their long journeys over the Gobi desert just as they started centuries ago.

Much Damage Done on Illinois river between Meredosia and Spanky Ranch in Jersey county.

SPRINGFIELD, ILL.—Reports from two districts, showing the damage done byb floods and the need of relief have been received by the Illinois Red Cross Relief Committee and the Illinois Flood Relief Committee, which are cooperating in the raising of funds to assist flood sufferers.

The estimated loss on buildings in this flooded area is $50,700 and an equal amount of damage was done to farm implements. At least $80,000 worth of corn held by farmers awaiting better market was destroyed and $40,000 worth of hay, making a total of $120,760 lost on hay and grains held in bins, according to the report.

The loss in this area, including the depreciation in the market value of flooded lands, the destruction of levees, and the damage to buildings, machinery, crops, etc. was estimated at $3,761,000.

A total of 241 farm families, or 1,446 individuals, and 90 town or city families, including 360 individuals, were driven from their homes by the high water.

MOST TAX SCHEDULES HAVE BEEN FILED

Deputy assessors in Morgan county have nearly finished their work and their schedules have been on file in the office of Grant Graff, assessor and treasurer. A great many Jacksonville people have filed their schedules in the office pesonally without attending to this necessary matter thru the deputy assessors. Mr. Graff gave notice recently of the final day for filing, with the result that nearly every tax payer has responded.

There are still a few scattering schedules to be received but these are expected to be in the office in the course of a few days. Meanwhile Office Deputy W. H. Self and his assistant, Robert Mutch, are compiling the records shown in the schedules. This work has merely begun and will be under way for weeks to come.

Mr. and Mrs. Michael Caffey of Tallula were shoppers in the city yesterday.

COMMUNITY PROGRAM AT EBENEZER CHURCH

Large Audience Heard Discussion of Farm Problems and Saw Films.

There was plenty of interest shown in the community meeting held Friday night at Ebenezer church under the auspices of the Morgan county farm bureau. Austin Patterson was particularly active in making the arrangements for the meeting and the audience present filled the church. Mr. Patterson made a brief talk as did C. S. Black and D. T. Heimlich. Then County Agent Kendall made a brief explanation of the scope and purposes of farm bureau work.

Three films were shown. "Bees, how they live and work," "King Apple and His Enemies," and finally "The Happier Way," being a film story of the modernizing of a farm home.

The audience seemed to be well pleased with the program and there was interesting discussion in which many took part following the informal addresses.

A similar meeting will be held tonight in the Baptist church at Literberry, when the films will again be shown.

VOTE TO RETAIN BARNSTORMING RULE

NEW YORK, June 9.—Retention of the barnstorming rule for the breaking of which Babe Ruth and two other players were suspended was recommended to Commissioner Landis today by seven National League Clubs represented at a meeting here.

Thoro consideration was given to the proposition to change the world series rules says an official statement which requires both participating teams to disband immediately after the series. It was held that the present rule is a good one and should be retained.

When Ruth, Bob Meusel and Bill Piercy of the New York Americans, the latter now with Boston, went on an exhibition tour last October they said they were justified before the rule was "unfair." Some considered it obsolete and others pointed that Commissioner Landis was making a strict interpretation of a resurrected law in suspending the three players.

STOCK MARKET IS AGAIN IRREGULAR

NEW YORK, June 9.—Stock market prices were again irregular on a very small turnover in the early stages of today's trading, but became decidedly heavy in the last half of the session when the weight of offerings effected numerous extreme reactions of 1 to 4 points.

Almost 40 per cent of the day's business was transacted in the last hour the entire list then displaying general unsettlement. Net declines of 1 to 3 points were registered by such leaders as Baldwin, Studebaker and Mexican Petroleum. Sales amounted to 1,750,000 shares.

The initial renewal rate of 3 per cent for call loans was shaded to 2¾ per cent in private offerings.

Latest revelations in connection with the Midvale-Republic-Insland Steel merger continued to operate to the detriment of those issues but rumors of other industrial and railway combinations were actively circulated.

Reports declared that such railroads as Missouri, Kansas and Texas, Chicago & Alton, Kansas City Southern and Texas and Pacific were about to establish advantageous troffic agreements.

General business in the middle-west showed substantial improvement and larger distribution of the most essential merchandising wars.

Liberty issues retained their place as leaders in the bond market four rising to par or better, despite irregularity and occasional heaviness in other government loans.

Total sales (par value) aggregated $15,337,000.

WHEAT SCORED ADVANCE IN PRICE

By Associated Press.

CHICAGO, June 9.—Wheat scored advances in price today chiefly as a result of improved export demand. The finish, altho unsettled was ⅛c to1⅛c net higher with July $1.15 to $1.15⅛ and September $1.14⅛ to $1.14¼. Corn closed 1⅛ to 2⅜c, oats ⅜@⅛c to ⅜s off and provisions unchanged to 5c lower. It was announced that 500,000 bushels of wheat had been worked today for export and that vessel-room for 450,000 bushels of wheat had bene chartered here largely for shipments to Georgian Bay. Shipping sales here in cluded 100,000 bushels of No. 2 hard wheat to exporters at 8c over July c. i. f. Buffalo and it was said cable messages from Great Britain had been received asking for offers or hard wheat. There was also gossip current that domestic millers were after supplies here. Seaboard messages asserting that 240,000 bushels of new American wheat and 160,000 bushels of Canadian wheat had been bought back from European at 2c below an American parity failed to weaken values. Bearish resentment from the government crop repart had only a transient influence on wheat traders. Altho the market opened lower and soon underwent an additional sag strong interests were busy picking up the offerings and with corn showing unusual buoyancy the upturn in wheat was readily achieved. End of the session profit-taking was responsible for cliping off part of the gains.

A big bulge in the corn market was started by heavy commission house buying based on an option from a leading authority that foreign supplies were no longer a burden.

Oats were depressed by the government report indicating a larger yield than was expected.

Provisions held steady owing to corn market strength and good export call for meats.

BRADSTREET'S WILL SAY TODAY

By Associated Press.

NEW YORK, June 9.—Bradstreet's tomorrow will say:

"Retail trade is better; this being reflected in more confident buying by retailers who show more disposition to buy for the future, the industries, especially iron and steel and automobile line are more active, buying has taken another surge forward, factory activities in shoe and leather marking have enlarged at the east while being rushed to capacity with some western points being stimulated by higher hide prices; crop reports have improved more especialy those as to the big surplus food staples and additional measures of monthly industrial movements received go to confirmation the idea that May saw a very pronounced forward step. All these developments have occurred in the face of a 50 per cent tieup in all coal mining and of the threat of a possible strike on the country's railways by what might be called the auxiliary classes of railway labor."

Weekly bank clearings $7,-302,470,000.

I. S. D. PUPILS WILL LEAVE FOR HOMES TODAY

Special Train Will Leave for St. Louis at 4 A. M.—Messengers Will be in Charge of Groups Traveling in Different Directions.

Pupils of the State School for the Deaf will leave for their homes today. However, the year has not closed at the School for the Deaf, as the teachers are to attend an institute beginning Monday and continuing thru Thursday.

Col. Smith, managing officer of the school, has made special arrangements for the transportation of the students today. A special train on the C. & A. will leave for the south at 4 a. m., and other children will be passengers on the regular C. & A. train at 6:10 a. m. The regular morning train north on the C. & A. at 6:31 will carry students, as will the other trains listed below:

C. B. & Q., south, 6:55 a. m.
C. B. & Q. north, 11:10 a. m.
C. P. & St. L. north at 7:40 a. m.
Wabash west, 6:10 a. m.
Wabash east, 8:15 a. m.

The special train at 5 a. m. on the Alton is necessary so that pupils living in the southern part of the state can make connections at East St. Louis. The train will arrive there a little after 7 o'clock and will thus be in time for the outgoing trains on the numerous roads that center at the East St. Louis Relay station.

Special messengers will have charge of the pupils, accompanying them to the station where friends or relatives are expected to receive them. The schedule as arranged by Col. Smith is as follows:

C. & A. south to East St. Louis, Miss Anna Kingsley, Mrs. Ruth Lavery, Everett Mann, S. Robey Burns.

C. & A. north to Chicago, Miss Grace E. Hasenstab; Mrs. Richard White, Mrs. E. G. LaBoyteaux, W. D. Ribelin, Bert R. Bishop.

Wabash east to Decatur, Miss Collins.

C. P. & St. L. to Peoria, Mr. Schoeneman.

ROAD TO HANNIBAL IS FOUND ROUGH

T. M. Tomlinson and Party Made Inspection Trip Yesterday—Tourists Advised to Cross River at Montezuma.

T. M. Tomlinson, who is an officer of the Ocean to Ocean Highway association, doesn't like to make recommendations about traveling over the route unless he is certain about the facts.

The report from the Hannibal Chamber of Commerce that the bridge has been repaired there and the highway thus open to travel was received Thursday. Mr. Tomlinson decided before tourists were advised to follow the route that local persons interested in the highway ought to have first hand information about the road conditions.

Accordingly yesterday, in company with George Wiseman and J. H. McLaughlin he made an overland trop to Hannibal. The Jacksonville men found the road from Oxville west in very poor condition and almost impassable in places. They also found that while the ferry can be operated at Valley City, that it is not running at present on a regular schedule.

Mr. Tomlinson said last night that after looking over the whole situation tourists should be advised to cross the river at Montezuma until further notice. Crossing cannot be made at Florence because the road there is closed while state aid road work is in progress.

After the program there was a social hour and every one enjoyed the treat which the Philathea girls made possible.

The first annual love feast of the Alpha Eta Pi, the girls' freshman society at Illinois College, was held last evening at the Peacock Inn. At six o'clock a banquet was served in the blue room of the Inn and dinner covers were laid for thirty-five guests. The room was made lovely with many garden flowers and an abundance of Old Rambler Roses, the society flower. The table decorations were in Old Rose and Grey, the society colors and these were carried out wit hroses and dainty place cards.

Following the serving of a four course menu, the president of the society, Miss Carol Lander introduced Mrs Robert Busey as toastmistress. The following program of toasts was given:

Among the guests were Miss Evelyn Galford, of Clear Lake, Iowa, a cousin of Mr. Philips, and Mrs. William Clampit of Beardstown.

Luncheon at Brown Home.

A delightful luncheon given at the home of Mrs. E. W. Brown on West State street at one o'clock yesterday closed the year for the Christian Church Passavant Hospital Aid society. Mrs. Brown is the president of the society and Miss Ida B. Venner of Passavant Hospital was a special guest at the luncheon. The Isolation Ward proposed for Passavant Hospital and for which this society has done so much during the past months, bids fair to soon be a reality according to reports made yesterday by Mrs. Charles W. Cully. The society has made a total of $442.64 since March 1st and has received over one thousand dollars from other sources. The following new contributions were reported yesterday:

Hebron Helping Hand class, $25; Woman's Club $25; Woodson Woman's Club $25; Sinclair Country Club $15; Strawn's Crossing Club $20; $5 from Mrs. Sarah Bowen and $10 from a "friend of the hospital."
